See our excellent website at  
[www.ladders999.co.uk](http://www.ladders999.co.uk)

for our huge range  
of ladders, steps, podium steps  
and scaffold towers

- ▶ When standard loft ladders are not suitable these Weight-Assisted Heavy Duty Loft Ladders may be the solution to your problem.
- ▶ All are specially made to your dimensions. Please enquire with your details for a firm quotation.
- ▶ Weight-Assisted Loft Ladders are based on the ladder sections of our Industrial 890 range of commercial loft ladders but are modified to mount on vertical walls or horizontal floors - even if there is no trapdoor present.
- ▶ Middle and lower sections are supported just by the counterbalance weights as used on sash windows - simply pull the sections down together with the operating pole supplied - fast, easy and safe. Bottom section is then supported by hand and lowered when side catch is released.
- ▶ Can be wall mounted as opposite or floor mounted if more suitable for your location.
- ▶ Can be designed for use with suspended ceilings.
- ▶ Can be made to fit any floor-to-floor height up to about 5.0m.
- ▶ Simple to fit - just screw or bolt into place - job done! No assembly is required.
- ▶ Specially made to your dimensions.
- ▶ Please enquire with your details for a firm quotation.
