

"CLASS 1 INDUSTRIAL" ALLOY LADDERS

BS2037 CLASS 1 approved - Industrial Duty

- ▶ These "Class 1 Industrial" ladders are very tough & designed for years of rigorous service.
- ▶ Tested and kitemarked to BS2307 Class 1 with a maximum safe load 175kg (27.5stones).
- ▶ Side stiles are of thick, box-section alloy which is graded in size according to the ladder length.
- ▶ Flat-top D-shaped alloy rungs are heavily ribbed for non-slip safety and are angled so that feet rest on wide surface during ascent & descent (not narrow rung edge as with square rung ladders).
- ▶ Solid moulded rubber bungs fitted at top and bottom.
- ▶ Rung Locks hold sections together when closed and prevents separation when in use.
- ▶ An excellent choice for keeping a smile on the face of the Health & Safety inspector!
- ▶ Full range of 3-section "Triple" ladders allows easier storage, easier transport, easier extension and maximum versatility.
- ▶ All three sections of triple ladders can be separated (unlike many brands) giving maximum versatility.

Rung Locks hold sections together for added safety when in use plus gives easier carrying and transport.

"CLASS 1 INDUSTRIAL" ALLOY LADDERS - kitemarked BS2037 CLASS 1

code	Closed Length	Max Extended Length	Rungs per section	Appx Weight
2 SECTION PUSH-UP (DOUBLES)
