

ADJUSTA-MINIT FOLDING PODIUM SAFETY STEPS

- › **Adjusta-Minit** is a new, high quality product..
- › It differs from the Minit because of its adjustable platform giving four different heights. The self-locking knuckle joints allow unfolding in seconds and the foot-controlled lever gives easy adjustment of the different platform heights.
- › Adjusta-Minit is just 725mm wide and weighs only 35kg, is also able to pass through a standard door, saving time on unnecessary reassembly.
- › Like the Minit, the Adjusta-Minit is practical when working at modest heights. Invaluable for a multitude of everyday site tasks, the one-piece aluminium unit has a maximum working height of 3.25m.
- › The 600 mm x 600 mm platform area is compact while affording adequate space from which to work 360° safely and in comfort. No assembly is needed; the fixed handrail is integral to the platform and the whole unit is simply lifted and locked safely into position with just three clicks ready for use.
- › Robust lockable castor wheels allow the platforms to be moved from one location to another and then locked in position to provide a solid, stable working platform.
- › It is effortless to manoeuvre the Adjusta-Minit into position whilst ensuring a maximum safe working load capacity of 150 kg - more than enough for the average user and his tools.
- › Adjusta-Minit offers the safest, quickest and most efficient way to work at relatively low heights.

Fits easily into a small van or estate car when folded.

"ADJUSTA-MINIT" FOLDING PODIUM STEPS				
code	Platform Heights	Appx Working Heights	Closed Size (Folded) H x W x D	Weight
YMINAJ1	0.41m + 0.80m + 1.03m + 1.25m	1.90m - 3.25m	1.96 x 0.74 x 0.48m	35kg
