

UGO RAZADECK FOLDING WORK PLATFORM

RAZADECK offers a safe stable work platform at three useful heights assisted into position by internal tensioning springs designed to power its ascent and control its descent smoothly and effortlessly.

There are no loose components with the Razadeck so the failsafe, one-piece design calls for minimal training.

RAZADECK will fit into a small van or large estate car, unfolds from a compact easily manoeuvred base and simply snap locks in to place at the desired heights.

Adjustable integral outriggers provide additional stability and the ample platform provides space and support for the operative and tools.

UGO RAZADECK FOLDING WORK PLATFORM

- › Three platform heights 0.55m + 1.00m + 2.00m - gives **reach heights up to 4.00m**.
- › No loose parts - integral ladder and adjustable stabilisers.
- › Fully folding tower design.
- › Ideal for one-man use - roll to workplace, lock castors, extend stabilisers, unfold to required height and start work in just a few minutes!
- › Easily portable and manoeuvrable, either closed or partly open, the unit passes easily through standard doorways and corridors.
- › Lightweight yet robust for Industrial use - max safe working load 125kg / 19.7 stones.
- › Provides a working platform 1000mm x 700mm. Access up inside of unit and through trapdoor platform when at full height. Access through hinged red guardrail when partly extended.
- › Minimal training required for operatives - no PASMA or IPAF certificates required.
- › Lightweight aluminium alloy construction with epoxy power coating and anodised parts.
- › Closed transport dimensions L x W x D 1.53m x 0.74m x 0.73m.
- › Brilliant & distinctive design. Beautifully manufactured and a top class safety product.
