

STAIRMAX ALLOY STAIRWELL SCAFFOLD

- ▶ StairMax provides a safe and simple solution to working on stairways and stairwells.
- ▶ Standard StairMax kit provides a platform level at 2.0m above the lowest stair tread.
- ▶ StairMax is very compact with a plan dimension just 1.3m long by 0.60m wide (maximum overall plan dimensions 1.45m long x 0.70m wide).
- ▶ Suitable for both commercial and domestic stairwells - max safe load 150kg.
- ▶ Robustly constructed to a certified ISO9002 quality system from full 2" alloy tubing as used in our industrial towers.
- ▶ Snap-on brace hooks for easy erection & dismantling.
- ▶ Components small enough to fit into a hatch-back car or small van.
- ▶ Note that the design of StairMax makes access up and down stairs difficult when erected on them. Unlike our other stairwell scaffolds, StairMax does NOT have 'walk through' frames at the base.
- ▶ Standard kit includes one Fixed Platform (option for Trapdoor Platform).

STAIRMAX SCAFFOLD KIT		OPTIONAL EXTRAS	
4 x	Stairmax Base Plate	1 x	StairMax Trapdoor Platform
4 x	Stairmax Adjustable Leg 0.3m ext	x	StairMax SP7 Stabiliser
4 x	StairMax 2 Rung Frame 1.0m high	STABILISING: It is strongly recommended that Stairmax is fitted with 150kg of ballast at the base of the tower or with stabilisers (if they will fit) to increase the stability. This is particularly important in 'open' stairwells. Full safety notes for stability are contained in the User Guide supplied with every Stairmax.	
1 x	StairMax Handrail Gate Frame		
1 x	StairMax Fixed Platform		
6 x	StairMax Horizontal Brace 1.3m		
2 x	StairMax Diagonal Brace 1.64m		
1 x	Stairmax Toeboard Assembly		
Full Kit Code: YSMX11			

KEY DIMENSIONS			
Overall Width	0.70m	Platform Height from lowest stair	2.0m
Overall Length	1.45m	Max Reach Height from lowest stair	4.0m
Leg Height Adjustment	300mm	Platform Height from highest stair	1.0m
Max load on scaffold	150kg	Overall tower height above lowest stair	3.3m
