

# "BLOX" MODULAR LOW-LEVEL WORK PLATFORM

**BLOX**  
ideal for the plasterer and decorator  
extends to any length  
including any number of corners

makes a handy tool bin too!

» BLOX is the ideal modular work platform for **plasterers and decorators** with a platform height 0.50m and any length you want including any number of corners.

» A brilliant safe replacement for the now outlawed milk crates & plank !

» BLOX is manufactured from high density tough Polyethylene, designed to have a safe working load of 150kgs/23.62 stone which conforms to BS and CE standards.

» The standard safety set comes in 4 units: 2 yellow BLOX + 1 black Platform Bridge + 1 black Hop-Up Step.

» Assembling the units together couldn't be easier - simply slot the platform into the BLOX, and away you go ( just like LEGO ! ). The step unit slots under the BLOX ensuring the whole unit is totally captive - so as you push it around the site it all still stays together in one piece !

» If you need to extend BLOX, simply add another Bridge Platform and a BLOX, to either carry on in the same line or at right angles.

» The working surfaces feature a honeycombed mould which allows any debris, plaster, paint etc to drip straight through.

» Safe & secure ; simple to use ; virtually indestructible ; easy to clean

» Yellow BLOX make ideal toolboxes when up-ended !

» Guardrail system available if required.
