REMEMBER

1. Check all components are available and operational.
2. Inspect the unit components for signs of damage or incorrect functioning prior to use. Damaged or incorrect components (or components showing signs of excessive wear) must not be used and should be returned to your local supplier. Castors should be periodically lubricated to keep them free running.
3. The unit is designed for internal use only on flat, level surfaces. Check that the ground is capable of supporting the weight of the DeltaDeck and equipment.
4. The safe working load of the DeltaDeck platform is 200 kg uniformly distributed; 200 kg total load per unit.
5. Castors must be locked when unit is in use.
6. Ensure that the platform is free of debris and equipment, and that brake locks are off prior to movement. Beware of soft or uneven ground and overhead obstructions.
7. Mobile access unit must only be moved by pushing or pulling by hand.
8. Always beware of live electrical apparatus; cables or moving parts of machinery.
9. To prevent accidental injury ensure safe positioning of hands and fingers when assembling and dismantling.
10. The DeltaDeck should always be climbed with Operator’s Centre of Gravity towards the platform.
11. Never jump onto platforms. Ensure platform is debris free.
12. Do not use hoisting arrangements on DeltaDeck unit.
13. Ensure guardrails and gates are locked and secure when platform is in use.
14. DeltaDeck units are not designed to allow them to be lifted or suspended.
15. Never use this equipment if you are ill, feeling tired, or under the influence of alcohol or drugs.
16. Wear practical, protective clothing, gloves and footwear.
17. Avoid loose garments and jewellery that could catch in moving parts and tie back long hair. Ensure the work area is well lit and ventilated.
18. Ensure the work area is well lit and ventilated. If in doubt, ask about lighting and ventilation equipment from your local supplier.
19. Do not work near flammable gases or liquids, petrol or paint thinner fumes for example. Keep combustible materials at a safe distance - at least 5m.
20. Keep children, animals and bystanders away from the work area. Cordon off a NO GO area using cones or other barriers or tape, available from your local supplier.
21. Do not use boxes, ladders or other such means to gain additional height at the platform.
22. Ensure that telescopic leg is free from contaminants and lubricated at regular intervals.
23. Ensure that telescopic leg is free from contaminants and lubricated at regular intervals.

These instructions and the equipment described are in accordance with BS EN 1298 and in compliance with BS EN 1004:2004

DELTADECK ASSEMBLY

It is essential to familiarise yourself with the equipment before commencing assembly procedures. The Platform must be assembled before use.

To assemble the platform, take the unit to the work area.

1. Lift one end of platform and simultaneously pull the leg assembly out until legs automatically lock in place.

2. Repeat operation to other side (ensuring locking mechanisms are set at the same height).

3. Lift one side guardrail section and rotate top section of guardrail through 180 degrees to allow both sections of guardrail to be locked together (at Guardrail locking device).

4. Repeat for opposing side guardrail.

5. Place end guardrail as shown.

6. Ensure that castors are locked

7. Once castors are locked access can be gained to platform.

8. Once access has been gained, immediately close guardrail behind you to provide protection to all 4 elevations of platform.

Note: Double check that locking positions at base of the guardrail are firmly secured.

Note: When accessing platform, keep body’s centre of gravity towards platform.

DAILY CHECKS

The unit must be checked on a daily basis and after any event which may have affected the integrity of the unit.

Use the checklist below prior to use.

- Castors Locked
- Adjustable legs and levers located and secure
- Guardrails fitted and secure
- Platform is level and placed on a level and suitable surface

If a box has not been ticked, do not use the unit until the fault is rectified.

Where a fault is found, access to the unit must be stopped.

DELTADECK

COMPACT DIMENSIONS

- Height 320mm
- Length 1110mm
- Width 730mm

SELF WEIGHT

27.2kg

PLATFORM HEIGHTS

1. 450mm
2. 530mm
3. 600mm
4. 730mm
5. 870mm

MINIMUM PLATFORM HEIGHT

Mark One - make sure knuckle joint is in locked position
Mark Two - make sure sleeve is placed over knuckle joint
