

Double-Sided Industrial Alloy Steps

CDS07

Heavy duty side bracing arms securely lock steps open and thick rubber feet on all steps ensure non-slip safety.

- » Double-Sided steps are ideal in stores, factories and warehouses where easy access is gained from either side of stepladder - reduces the amount of moving required.
- » Also stronger than standard Swingback steps because channel side stiles are stronger than Swingback rear legs.
- » Standard Industrial Duty models are made to old BS2037 Class 1 (max load 175kg / 27.5stones) from Industrial materials and are perfectly suitable for the vast majority of industrial users. Not kitemarked.
- » Non-slip ribbed alloy treads are 80mm (3") deep and fitted at 265mm rise.
- » Note that the Health & Safety regulations require that users never stand higher than the last tread from which they can maintain a secure handhold on the steps.
- » Made-to-order and normally DELIVERED FREE mainland UK in 7 - 14 days .

All models fitted with strong self-locking side hinges at top treads.

" DOUBLE SIDED " Industrial Duty Alloy Steps					
Code	Overall Height Open	Base Dimensions L x W	No. Treads (per side)	Closed Height	Weight (kg)
STANDARD Industrial Duty Double-Sided Alloy Steps					
CDS03	0.74m / 2' 5"	0.82 x 0.39m	3	0.84m	4.2
