

"HEAVY INDUSTRIAL" Class 1 Alloy Stepladders - kitemarked BS2037 Class 1

- ▶ Highest quality traditional design Heavy-Duty Industrial alloy Class 1 steps kitemarked to BS2037 Class 1 max load 175kg (27.5stones) and designed for regular tough use.
- ▶ Made of thicker and stronger alloy than standard "ES" Class 1 steps for increased durability.
- ▶ Non-slip ribbed alloy treads are 80mm (3¼") deep and fitted at 250mm (10") rise. Top tread of Swing-back models is 130mm (5") deep.
- ▶ All models fitted with strong angle-section back legs by a robust integral hinge running full width across the steps. Heavy duty side bracing arms securely lock steps open and thick rubber feet on all steps ensure non-slip safety.
- ▶ Extra Heavy-Duty Platform Steps have thick alloy chequer plate platform which automatically folds flat when steps are closed and measures approximately 435mm x 250mm (17" x 10") and are fitted with large, extra strength box-section back legs.
- ▶ Note that the Health & Safety regulations require that users never stand higher than the last tread from which they can maintain a secure handhold on the steps.
- ▶ **Wonderful traditional steps of exceptional strength but BS Class 1 is now discontinued & this range is discontinued too — a few sizes still in stock & when they are gone they are gone!!**

"HEAVY INDUSTRIAL" Class 1 Alloy Stepladders					
Code	Overall Height Open	No Treads Inc Platform	Platform Height	Closed Height	Weight (kg)

"INDUSTRIAL" Alloy Steps - kitemarked BSEN131 PROFESSIONAL

Side Handrails can be fitted when required — see website & page 3 here

Large folding platform with chequer-plate non-slip surface on Platform Step models

- ▶ Standard Industrial alloy steps in a modern design and kitemarked to BSEN131 max safe load 150kg (23.5stones).
- ▶ "NES" range Class 1 steps feature 80mm (3¼") deep non-slip alloy treads with unique strengthening beam, fitted at 225mm (9") rise.
- ▶ All models have box section back legs 35 x 20mm and locking alloy side arms. Alloy bracing "K" straps fitted to front & rear sections for increased strength & rigidity. Durable rubber feet fitted to the front with tough plastic bungs at the rear.
- ▶ Platform Steps have thick alloy chequer plate platform which automatically folds flat when steps are closed and measures 300mm x 250mm (12" x 10"). The gap between platform and top bracing rail is 640mm / 2' 1".
- ▶ Note that the Health & Safety regulations require that users never stand higher than the last tread from which they can maintain a secure handhold on the steps.

Optional Side Handrails for steps

Side Handrails can be fitted as an optional extra. Rails are of strong, comfortable box-section alloy 25mm square.

Order 2 handrails if required on both sides. If ordering one side only, please state WHICH side! They are pre-drilled and fitted but supplied loose (with fixings) to avoid damage in transit. A 10mm spanner is required to refit handrails.

Optional SIDE HANDRAILS				
Code	Description	Suitable Stepladders	Where Fitted?	Appx Weight
CHRL13	Small Side Handrail - each	Fits ESS07 - ESS10 ; ESP04 - ESP06. Also Fits SL06 - SL08 ; SF04 - SF08 ; SP04 - SP08.	STATE WHICH SIDE	0.30kg
CHRL20	Large Side Handrail - each	Fits ESS12 ; ESP07 - ESP12. Also Fits SL10 - SL14 ; SF10 - SF12 ; SP10 - SP12.	STATE WHICH SIDE	0.50kg
Normally in stock for Next-Day delivery most of UK mainland
