

“ Insul8 ” All-Glassfibre Safety Ladders

- ▶ INSUL8 ladders are constructed ENTIRELY from GRP and are the highest quality UK manufactured glass reinforced plastic ladders.
- ▶ INSUL8 ladders are highly distinctive and the finest ALL-FIBREGLASS and fully non-conductive ladders in the UK.
- ▶ The yellow side stiles are very heavy-duty 84 x 30mm channel section GRP and the non-slip serrated GRP rungs are 30 x 30mm square box section GRP.
- ▶ Special rung joints give a secure and anti-twist fixing.
- ▶ Essential for electrical installations, electrical maintenance, and chemical industries.
- ▶ INSUL8 ladders conform to previous BSEN131* standard, plus American ANSI 14-5 and ENATS 14-1.
- ▶ For fully kitemarked certification to new BS EN131-2 Professional standard a base stabiliser bar must be fitted at extra cost—please advise if required.
- ▶ INSUL8 ladders are used by every electricity company in the UK as well as many chemical, gas and electrical utilities worldwide.
- ▶ Wall runner wheels fitted at top of all extending ladders.
- ▶ Swinging gravity latch fitted to all extending ladders.
- ▶ Solid rubber feet fitted and all ladders are fully repairable - in contrast to most other brands.
- ▶ Also available with round alloy rungs instead of square GRP rungs. Please enquire for details.

ALL glassfibre construction with GRP insulated side stiles + non-slip rungs

conforms to previous Euro safety standard **BS EN131*** with a max safe working load 150kg

Optional swivelling Octopus Feet can be fitted at base instead of standard rubber bungs & optional Pole Bows at the top on request

* For fully kitemarked certification to latest BS EN131-2 Professional safety standard with a max safe working load 150kg a base horizontal stabiliser bar must be fitted at extra cost — please advise if required
