

Industrial Steel Mobile Safety Steps

- » High quality Industrial Safety Steps manufactured in the UK from tubular steel, with punched steel treads.
- » Ideal for safe access in warehouse storage areas, maintenance in the workshop and even the office.
- » Safe working load is a huge 300kg (47 stones!) and manufactured in an ISO9001 registered facility. Fully welded and assembled for instant use.
- » Coated in a very tough and attractive deep Blue polyester-powder finish for long-lasting protection. Standard colour deep Blue or can be deep Red on request. Other colours at extra cost.
- » New Polyester-powder coating is vastly superior to epoxy finishes. It is tougher and more durable plus UV stabilisers make it much more suitable for exterior use than most epoxy coats.
- » Punched steel treads are 200mm / 8" deep and fitted at 250mm rise with handrails both sides.
- » Large platform 400 x 550mm / 16" x 22" is surrounded by a 1.0m / 3ft high handrail on three sides plus half-height midrail. Toeplates fitted around platform on models with platform height over 2.0m.
- » Rubber tyred wheels fitted at the rear with swivelling castors at the front for easy manoeuvring.
- » Braked by the Anti-Ascent Safety Bar which blocks access to treads whilst mobile but retracts to allow safe ascent and brake the steps. Side Lever instead on small 3tr models. Spring-loaded castors on smallest 2tr model.
- » Many variations to the standard range are available including PVC covered treads; single-sided handrails; alternative tread width; hinged gates at platform; side operating lever etc. Please enquire for details.
- » Fully welded and assembled for instant use. Also available in "Knock-Down" form for ease of transport and for access into awkward areas on site. Assembly of optional "Knock-Down" steps requires spanners and takes around 15 minutes.
- » Need a SPECIAL? Modifications on request - ring 01452 520144 to discuss with our helpful staff.
- » Please check **Overall Dimensions** overleaf before ordering to be sure it will fit.
- » Normally made-to-order and delivered in 7 - 14 days. FREE DELIVERY mainland England & Wales only - Scotland extra.
