

PAXX Tower

MODULAR TOWER SYSTEM

- Professional tower system available in modular packs to build the tower up to 5.6m platform height
- One-piece fold out snap-frame with simple, one-handed lock and release operation, for quick and easy set up
- Quick and safe assembly - 2m build intervals between each tower size
- Sturdy platform with trapdoor for easy access to each level
- Strong end frames with 250mm rung pitch for easy and safe climbing
- Smooth slot-in spigots to prevent tilting when the end frames join together
- Heavy-duty braces for added strength and rigidity
- Innovative toe board system with no clips – removes the need for toe board clips reducing the amount of loose components
- Adjustable stabilisers provide secure grip on uneven ground
- Suitable for Indoor and Outdoor use
- Certified to the latest EN1004

Base Pack

Pax Tower

- Fits through doorways and corridors
- Compatible with both 3T and AGR tower builds

Through the Trapdoor (3T)

Constructed using a strong bracing system and can be assembled using the trapdoor of the platform

Advanced Guardrail (AGR)

Enables a quicker and simpler tower assembly with fewer components
