

# "ARPod" Alloy Safety Work Platforms

- The **LOW COST** & convenient method of complying with safety regulations !
- " ARPod " is much **MORE** than just a conventional stepladder. It provides exactly what the Health & Safety Regulations call for - **more stability** than ordinary stepladders and gives **4 sided guardrail protection**. BINGO !
- Much safer than standard steps because of the 1.10m high guardrail at front and both sides, PLUS safety chain behind user. Gives 4 sided guardrail protection as required by HSE.
- Much safer also because the **large footprint** area gives greater stability.
- **Huge platform** 600x400mm.
- Ideal for easy one-man use - simply unfold the unit and start work!
- Easily portable and manoeuvrable, either open or closed. The roller wheels fitted to rear mean it can be tilted and rolled along.
- Looks like a step but much safer & better than a step!!

Folds flat for storage and transportation - just 440mm thick when folded.

**BS EN131 PROFESSIONAL kitemarked** with max safe working load 150kg / 23.5 stones.
