

Visio3GRP All-Glassfibre Safety Work Platforms

All-Fibreglass construction ...
Yellow GRP side stiles
and blue GRP treads & platform

▶ Visio3GRP provides a totally insulated work platform which complies with the Work at Height Regulations 2005 and is MUCH MORE than just a conventional stepladder.

▶ Yellow Glassfibre side stiles and blue glassfibre treads and platform give **full electrical insulation** - essential when working near live electricity.

▶ Much safer than standard steps because of the 1.10m high guardrail at front and the deep alloy guardrails both sides. Optional Webbing Strap can be fitted across guardrails if required.

▶ Much safer also because the large footprint area gives greater stability.

▶ Extra large platform is 550mm x 400mm.

▶ The only metal is in the fixings, bracing brackets and alloy guardrails each side.

▶ Ideal for easy one-man use - simply unfold the unit and start work!

▶ Easily portable and manoeuvrable, either open or closed. The optional Tilt-n-Roll Wheels can be fitted to rear and allow it to be tilted and rolled along.

▶ Lightweight yet robust for industrial use - max safe working load 150kg - kitemarked to Euro safety standard BS EN131.

▶ Folds flat for storage and transportation - just 440mm thick when folded.

▶ All sizes made-to-order and not stocked.

ALL glassfibre construction with GRP insulated side stiles + treads + platform

Kitemarked to Euro safety standard **BS EN131** with a max safe working load 150kg

Optional Tilt-n-Roll Wheels are clear of the floor until Visio3GRP is tilted (either closed or open) when they allow easy movement between locations

Visio3GRP All-Glassfibre Safety Work Platforms

Optional Extras:

Webbing Strap & Buckle can be fitted across guardrails for extra safety if required to close off the fourth side.

Podium Tag can be fitted to side stil if required.

Guardrails are plain aluminium as standard but can be Powder Coated or Plastic Coated if required. Fibreglass Insulated rails also available to special order.

Optional Extra:

Tilt-n-Roll Wheels can be fitted at rear for effortless rolling between jobs, when open or folded closed.
