

Roofline Step Overs

Wherever transit is required over ducting, parapet walls, conduit or any roof obstruction a step over unit, freestanding or fixed to the floor, is the safest access available.

Complying with the Work at Height Regulations and, where applicable, BS5395: Part 3, step over units give flexible access over a range of widths and heights while keeping the operatives safe and enclosed with handrails at all times.

... even very tiny ones!!

We offer supply only quotations, and (in certain locations) a supply and fix service too.
