# StopNocs Impact Protectors

StopNocs protect your scaffold tower or podium steps and also the building surfaces around it too. The simple way to reduce impact damage.

- StopNocs is an innovative protection system designed to reduce impact and scuffing damage to all categories of finished surfaces.
- Reduces damage to buildings so reduces costly claims for repairing that damage too!!!
- Manufactured from a closed cell, fire retardant material designed to meet industry standards, Stop-Nocs is compatible with a range of equipment including low-level access, aluminium towers, mobile elevated platforms and system scaffold providing protection for plaster work, fixtures, fittings, paintwork and operators alike.
- Highly cost effective.
- Fire retardant foam material.
- Easy installation - simply push-fit around tube.
- Dimensions:- diameter 250mm ; height 100mm ; hole diam 50mm.
- Normally in stock for **NEXT-DAY** delivery most UK mainland
