

For the ultimate  
in safety on top  
of your tankers  
and trucks and  
trailers

# TANKMASTER

## Mobile Access Ladder

- ▶ Safe access to all types of tank-top hatches
- ▶ Adjustable platform height 2.75m - 4.5m
- ▶ Safety cage guardrails surround work area
- ▶ One man operation
- ▶ Work at Height compliant

# TANKMASTER Mobile Access Ladder

**Tankmaster** provides all the safety required by UK "Work at Height" regulations when accessing a wide variety of tanker and truck roofs.

The octagonal safety cage guardrail encloses workers to ensure no-one accesses the roof without approved fall protection.

Height extension of upper platform ranges from 2770mm - 4500mm powered by a simple hand-cranked hydraulic ram.

One man operation in total safety.

Mobility is provided by four locking castors as standard but can be fitted with optional towbar and heavy duty wheels if preferred.

**Tankmaster** features an octagonal safety cage guardrail to enclose workers.

Guardrail cage with three rails and diameter 2.0m (alternative shapes and sizes optional at extra cost).

Galvanised non-slip treads and top platform with self-draining holes.

# TANKMASTER Mobile Access Ladder

Optional extras include...

Steering tow bar and heavy duty castors instead of standard castors

Heavy duty kick-down jacks instead of wind-down jacks

Locking forklift pockets instead of standard pockets

Solid rubber wheels instead of nylon castors

Alternative design or diameter guardrail

Earth bonding lead

**Tankmaster** is suitable for use with rigid tankers, trailer tankers and ISO tank containers.

It is designed to ensure the operator is safe and secure whilst climbing onto the tanker and working within the confines of the safety cage in compliance with the requirements of the Working at Height regulations.

In addition to its main role for tanker access, the option of a wide range of alternative platforms and guardrails makes it suitable for a wide variety of other roles for vehicle maintenance, container access etc.
