

TELESTEPS

THE FINEST
TELESCOPIC ALLOY LADDER

Grows from a tiny
0.79m to an amazing
3.3m in ten stages,
and weighs only 10kg.

The first telescopic ladder in the world.

The most innovative ladder in the world.

And probably the world's most awarded ladder.

Closed height only 0.79m, extending to 3.3m

Fully tested & approved to EN131—max load 150kg

NEW DESIGN - HIGH QUALITY

The new generation of Telesteps is a completely new ladder. It has been given a modern design and many improved functions, particularly in the field of safety. The aluminium has an anodised finish which makes it smooth to the touch and keeps the user's hands clean even with frequent handling. Fully tested and approved to European Standard EN131 with a maximum safe working load of 150kg (23.5 stones).

TEN LADDERS IN ONE—WITH UNIQUE BENEFITS

Telesteps is an exceptional ladder without the problems of a conventional ladder. It is easy to transport by car and light to carry around. You also have ten lengths of ladder to choose from, which means you can always get the perfect height to work at. Which other ladder gives you this? Telesteps is sturdy and safe. It has been tested and approved accordance with European safety standards. Being manufactured in Sweden under strict controls, high quality is guaranteed at all times.

LANSFORD offers you the genuine

TELESTEPS

**THE FINEST
TELESCOPIC ALLOY LADDER**

Standard Telesteps have a tread depth of 40mm, similar to normal ladder rungs, but also available is the **WIDE STEP Telesteps** model - treads are 80mm deep, more like a stepladder tread, which provides increased comfort for the feet. Also EN131 approved—with a maximum safe working load 150kg (23.5stones).

Swivel Safety Feet make an excellent safety accessory to Telesteps ladders, giving lots of extra grip with their 150mm diameter rubber bushes. Standard feet and also levelling models are available. The **Levelling Safety Swivel Feet** have up to 23cm of height adjustment to correct for sloping or uneven ground. They can even be used on stairs as illustrated.

Carry bags protect the Telesteps, make them easier to carry and create a more professional image. Carry Bags are made of tough black nylon and fitted with an adjustable shoulder strap plus "letter-box" finger slot to aid carrying.
