# "VLP" TRADE Pro Alloy Ladders

new BS EN131 PROFESSIONAL Euro Standard

Galvanised rung locks keep sections together when carrying and transporting plus prevent separation when in use but easily rotate for extension. Perfect ladders for most general TRADE activities.

Comfortable flat-top rungs at 250mm / 10" centres with non-slip ribbing as preferred by many who are used to this traditional run-to-rung spacing—closer than the 280mm spacing on our Heavy Duty ENX range.
